

Who knew that mixing tuna & nano results in patents?

The Smalley Institute's annual TunaFest brings together 1,500 nano-enthusiasts for tuna, beer, music and fun! The discussions and connections made at TunaFest have led to new collaborations and several patents.

Join us for hamburgers, veggie burgers, beer, live music, and yellowfin tuna caught by Wade Adams and Ned Thomas.

Come out to enjoy good food and company while networking with the Smalley Institute!

9th Annual TunaFest

July 1, 2011 @ noon
Space Science Courtyard,
Rice University
Entrance Gate 20 via Rice Boulevard
Houston, Texas
