

SPACE CITY 2020

SPACE STRATEGY WORKSHOP

Rice University BioScience Research Collaborative • Friday, Sept. 9, 2011

Join government, industry and university experts as they create a strategic vision for how the Greater Houston area will adapt to the changing mission of NASA and the evolving role of the Johnson Space Center and the aerospace contractor community. These leaders will also begin preparing for the next decade of space technology innovation, collaborative solutions and commercial partnership development.

Registration includes a full day of strategy sessions, breakfast and lunch, coffee breaks, parking, all necessary workshop materials and a concluding banquet.

The workshop includes remarks by Mayor Annise Parker and a keynote address by former NASA Chief Scientist France Córdoba.

To register or join the list of Space City 2020 sponsors, please visit <http://spaceforum.rice.edu>.
